SPEC SHEET

PowerSync Pro™ GEN. 2 SMART HUB

ZERO-TOUCH MOBILE DEVICE PROVISIONING

Charge, provision, and manage a shared pool of iOS, or iPadOS devices.

For organizations looking to manage a large pool of iPhone or iPad devices, the PowerSync Pro™ Smart Hub provides a best-in-class hardware experience for simplifying the management of these devices. When combined with Apple Provisioning Utility (APU), or GroundControl®, organizations can gain control of their devices by automating device provisioning, lowering support costs, and improving workflow efficiency.

ZERO-TOUCH I.T.

The partnership of the PowerSync Pro™ Smart Hub and the powerful provisioning software provide I.T. Departments the ability to simplify management of devices and save critical time.

SELF-CONTAINED PROVISIONING

Secure dedicated compartment under the hub for securing the Mac mini* (2018) to run Apple Configuration 2 software (AC2), Apple Provisioning Utility (APU), or GroundControl Launchpad.

GROWTH IN MIND

The PowerSync Pro™ Smart Hub is designed to grow with your organization. Daisy-chain and provision up to three hubs or 40 devices with one Mac mini.

BUILT TO LAST

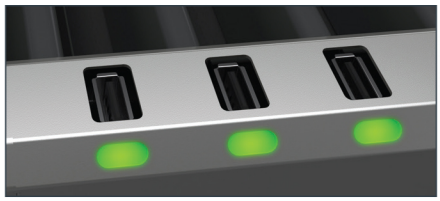
Designed and built in the USA.

**Available only on larger 10L and 20L models.*

DESIGNED & BUILT
IN THE USA

OPTIMIZED FOR iOS AND iPadOS DEVICES

FULL-TIME, FULL-RATE CHARGING
Our iPhone charging station reliably maintains a 2.4A charging rate, even while connected to a host Mac mini for syncing. It also offers a charging rate of up to 1.5A with a Windows host.



STATUS ON-DEMAND | LED lights located next to each device show charging status and let you know when the device is ready for use.

EASY CONNECTION | Larger L models include USB-C pass-through port for easy connection of other peripheral devices to the internal Mac mini.
