

## Weatherproof RFID Reader Enclosure

Integrated wiring and IP-66 Rated - 12" x 10" x 6"

**Universal Fit works with most 4 port RFID readers including ThingMagic, Alien, Intermec and more.**

RFMAX Weatherproof IP-66 Rated Universal Fit RFID Reader Enclosure features high quality construction for wall or mast mounting of most popular fixed 4 port readers in harsh industrial environments or outdoor applications. Features integral wiring and RPTNC female bulkhead connectors plus one RJ-45 ethernet/PoE connection. External enclosure is made of extremely durable polycarbonate 2 piece construction, with stainless steel quick-release latches and integrated polyurethane gasket to seal out the elements.

### Ordering Info:

Part #  
PCE12106-002  
(Type RPTNC-female connectors)

- Molded polycarbonate industrial enclosure
- Stainless steel quick release latches with padlock hasps
- Includes (4) internal coax jumper cables, PoE surge suppressor, Ethernet patch cable and brass mounting lug
- Polyurethane gasket seals out the elements
- Includes pre-configured aluminum mounting plate and wall mount tabs
- Also available with RFID reader pre-installed - Please call for details

Ports:	(4) RPTNC Female connectors (1) RJ-45 Ethernet PoE connector
Enclosure Material:	Polycarbonate
Enclosure Color:	Light Grey (RAL 7035)
Weight:	7.5 lbs. (3.4 kg)
Outside Dimensions (max):	13.46 x 12.25 x 8.6 inches (342 x 311 x 218 mm)
Inside Dimensions (usable):	10.83 x 8.86 x 5.32 inches (275 x 225 x 135 mm)
Flame Rating:	UL 508
RoHS Compliant:	Yes
Ratings*:	NEMA type 4, 4X / IP66

Coaxial jumper cables and RFID antennas are also available. Enclosures are also available in other sizes and configurations to fit most RFID popular readers
