## Manage, Distribute, and Track your most important physical assets

Our lockers provide enterprise-grade portable device management and security that simplifies the charging, maintenance, loaning and distribution of valuable physical assets across your organization.

Get devices in users hands where they belong, quickly and safely.

### SECURE OUT OF THE BOX

Enterprise-grade security with a custom Bretford-designed embedded system so you can rest easy knowing all your devices are safe and secure.

### ANSWERS AT YOUR FINGERTIPS

Get complete insight into device usage, by user, device type, building, location, and more. Our single pane of glass provides the logging, metrics, and analytics to support complex auditing, reporting, and compliance needs.

### INTEGRATE INSTANTLY

Our built-in ACL and MDM integrations support LDAP, Azure AD, Google Workspace, and JumpCloud, and our Connect APIs support endless integrations and configurations for any environment.

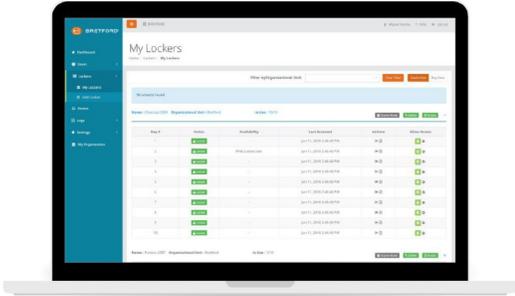

### ADAPT TO YOUR WORKFLOW

TechGuard Connect® features Assigned, Shared and Check-In/Check-Out modes to adapt to the specific needs to your workflow

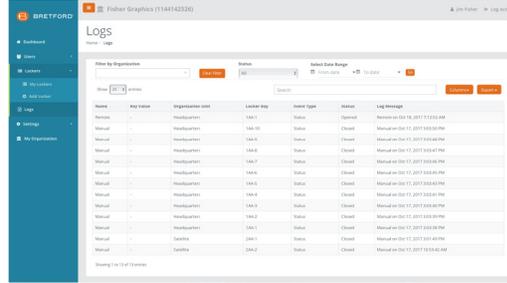

## BRET FORD CONNECT®

Our cloud-based software allows organizations to remotely configure lockers, provision and manage the loaning of devices, and access real-time usage logs.

## ACCOUNTABILITY

When paired with authentication technology in the TechGuard Connect® Locker, Bretford Connect provides an audit trail, streamlining the compliance process and helping IT administrators monitor locker usage.

## BUILT TO SPEC, FASTER THAN YOU EXPECT

Our Lockers are fully customizable to spec, built in-house, and are made to order. Choose from generous power and networking options, pick your color, add your logo and even work with our software development team to ensure seamless integration into your organization's infrastructure.
