

Trade-Up & Trade-In Programs

Developed by
CARDPRESSO
Identification Software Solutions

Tired of struggling with the same old issues on your ID card software?

With regular FREE updates and new implementations, start using an optimized software solution!

Take advantage of the great conditions of ID-ALL Trade-Up or Trade-In Program!

Trade-Up and Trade-In Programs

The Trade-Up and Trade-In Programs are available to all **CARDPRESSO** partners and were specifically created to encourage the replacement of your clients' outdated software with an equivalent or higher edition of **ID-ALL**.

Updated and optimized solution

With regular updates, new implementations, and continuous improvements, **CARDPRESSO** is constantly working to offer an optimized software solution. The **ID-ALL** software is fully compatible with the latest operating systems, allowing your clients to continue using their current work environment without any technical limitations.

Reduced time on technical support

By standardizing the ID card software solution, you simplify the provision of technical support, focusing your efforts on a single product rather than multiple distinct solutions. This makes your team more efficient, saving time and reducing operational costs.

Attractive commercial conditions

Take advantage of the beneficial commercial terms offered by **CARDPRESSO** through the Trade-Up and Trade-In Programs.

Provide your clients with a highly competitive market solution, with special pricing that enables a quick and easy replacement of their old software with **ID-ALL**.

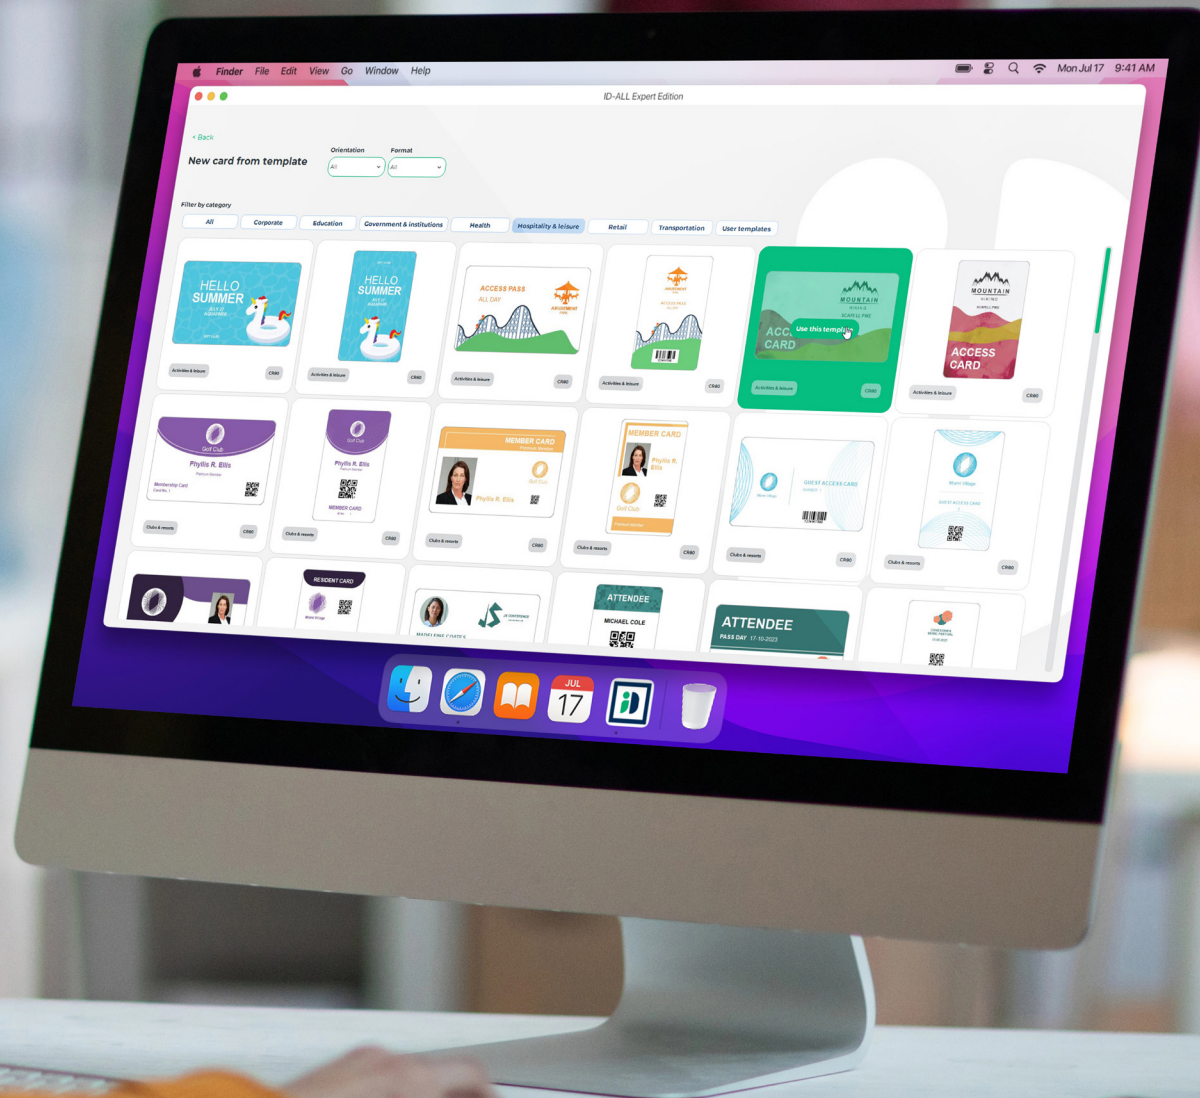

Trade-Up vs Trade-In Programs

Trade-Up (cardPresso → ID-ALL)

Trade-In (Competitor → ID-ALL)

Definiton	Upgrade for cardPresso customers to the new ID-ALL software.	Replacement of a competitor's software with ID-ALL , under a promotional offer.
Requirements	Being a customer with a valid or previous cardPresso license.	Proof of an active license of competitor software.
Practical Example	cardPresso client upgrades to ID-ALL with an exclusive plan and onboarding.	User of software XPTO switches to ID-ALL under special conditions .
Customer Benefit	Transition to a more advanced platform, maintaining support continuity.	Access to a modern, efficient solution at a lower initial cost.
