LF MULTI-TAG DESKTOP READER

- Multi-tag reader for all common 125 kHz transponders
- USB interface
- Desktop reader for use in offices or at the PoS, for applications like Ticketing, ePayment etc.
- Reader has its own local intelligence, the most important functions of the reader can be configured to support an offline operational mode

Desktop Reader

ID RWA40.30-USB is designed as a desktop device for contactless data exchange with common 125 kHz transponders and is suitable for various office-, administration- and industrial applications.

Power supply and data exchange with a computer or other equipment is carried out via USB interface.

The reader has its own local intelligence. Thereby it can be used for both online and offline operation, even as an independent reader, separated from the central host.
