

## Captuvo SL42 Series

### Enterprise Sled for Apple iPhone 6s and iPhone 6s Plus

For enterprises looking to extend the capabilities of the Apple iPhone iPhone® 6s or iPhone 6s Plus, the Honeywell Captuvo™ SL42 enterprise sled transforms the popular smartphone into an enterprise-ready solution that speeds business agility and lowers total cost of ownership. The Captuvo SL42 sled targets mobile frontline workers who require real-time connectivity to business-critical applications and superior barcode scanning performance to improve productivity and better serve customers whether on the floor, on the road, or in the field.

From a leader in barcode scanning technology, the Captuvo SL42 sled for Apple iPhone 6s and Apple iPhone 6s Plus quickly and accurately focuses, illuminates, and reads hundreds of barcodes per shift, even when they are damaged, poorly printed, or on a mobile screen. Optional TotalFreedom™ scanner software plug-ins improve scanning of direct mark barcodes and other standard 2D barcodes, including AAMVA North American driver's licenses and documents, so mobile workers are enabled to rapidly capture and access information anytime, anywhere.

The Captuvo SL42 sled was built to withstand the demands of work in the field with rugged specifications that extend the lifecycle of the smartphone and eliminate the more frequent replacements required for consumer devices alone. Plus, the Captuvo SL42 sled extends the battery life of the smartphone with the capacity to last a full shift and beyond. The ability to quickly replace the battery ensures mobile users do not lose valuable time servicing customers when a device is out of service for charging. The Honeywell Captuvo SL42 series is the right solution to help enterprises reduce device acquisition costs, empower employees, increase productivity, reduce downtime, and improve the customer experience.

*The Captuvo SL42 sled paired with the Apple iPhone 6s or iPhone 6s Plus allows enterprises to confidently deploy a preferred consumer mobility solution, with a lower total cost of ownership.*

## FEATURES & BENEFITS

EasyDL™ reduces transaction time by 95% by automatically parsing barcode data found on government-issued identification cards for age verification or automatic electronic form population.

Provides up to 60% additional power versus a competitive solution, ensuring maximum uptime for mobile users in the field.

Increases productivity and throughput with an integrated and easy-to-use imager that provides aggressive scanning of linear and 2D barcodes.

A protective housing provides added durability to the iPhone, reducing failure rates as much as 80% compared to competitive solutions.

An optional security mechanism secures the Apple iPhone in the sled via unique screws, improving overall durability while reducing the likelihood of theft of the iPhone.

# Captuvo SL42 Technical Specifications

## MECHANICAL

**Dimensions (L x W x H):** 167,2 mm x 79,3 mm x 26,7 mm (standard battery version); 167,2 mm x 79,3 mm x 31,8 mm (extended battery version)

**Weight (without iPhone):** 211.5 g (standard battery version); 245.5 g (extended battery version)

## POWER

**Input Voltage:** 5 V

**Power Supply:** 5 V, 3 A wall adapter

**Battery:** Removable 1670 mAh (standard version) lithium ion battery; Removable 3340 mAh (extended version) lithium ion battery

**Expected Charge Time:** 4 hours (Captuvo + Apple iPhone) (standard battery version); 6 hours (Captuvo + Apple iPhone) (extended battery version)

## ENVIRONMENTAL

**Operating Temperature:** 0 °C to 35 °C (32 °F to 95 °F)

**Storage Temperature:** -20 °C to 45 °C (4 °F to 113 °F)

**Humidity:** 5 % to 85 % relative humidity, non-condensing

**Drop:** Designed to withstand multiple 1.2 m (4 ft) drops to concrete, all axis under room temperature

**Environmental Sealing:** IP54

**ESD:** ±8 KV Direct and ±15 KV Air

## SYSTEM ARCHITECTURE

### Device Compatibility:

Apple® iPhone® 6  
Apple® iPhone® 6s  
Apple® iPhone® 7  
Apple® iPhone® 8

**Interfaces:** Full USB between Apple iOS device; USB between Captuvo & PC

**I/O Ports:** Micro USB

**Buttons:** Left and right side scan buttons, volume buttons, home button/touch ID sensor

**Audio:** Access to speaker, microphone, beeper indication

**Camera:** Access to Apple iPhone front and back cameras and LED flash

**Scanner\*:** N6600 Standard range (SR) imager

**Decode Capabilities:** Reads standard 1D, PDF, 2D, postal, and OCR symbologies

**Number of Scans:** Up to 200,000 scans

**Expected Hours of Operation:** 6 hours (Captuvo SL42 + Apple iPhone) (standard battery version); 12 hours (Captuvo SL42 + Apple iPhone) (extended battery version)

**Development Environment:** Captuvo SDK for Apple iPhone 6 series and Apple iPhone 7

**Application Software:** Available on the Apple App Store or via third-party application developers

**Warranty:** One-year factory warranty

## ACCESSORIES

Standard USB A to Custom Micro USB cable (included)

Wall adapter for US, EU, & UK (included)

Four-bay battery charger

Mobile charger

*\*No scanner option also available.*
