Modular RFID  
Components

## AdvanReader-70A™

Reader with integrated antenna  
and confined reading area

### Benefits:

- High flexibility
- Compact design
- Highly controlled reading area
- Easy installation, configuration and integration

### Applications:

- Libraries
- Retail stores
- Document tracking
- RFID programming stations
- Smart display fixtures
- Smart surfaces
- Check-in / check-out of items, people and assets

### Product overview

AdvanReader-70A is a high-performance, high-flexibility reader with integrated antenna ideal for check-in / check-out applications of items, people and assets.

AdvanReader-70A has high output power (27 dBm) and high sensitivity and its confined beam antenna allows to control very well the reading area, even with far field tags, avoiding in this way stray reads.

AdvanReader-70A has an on-board microcomputer and a fully open Linux operating system and comes with a comprehensive set of built-in HW/SW communication options:

- USB HID emulation: allows generating keyboard events based on Reader events.
- HTTP: user-configurable HTTP request generation based on Reader events.
- MQTT: user-configurable MQTT packet generation based on Reader events.
- SQL: user-configurable SQL sentence generation based on Reader events.
- TCP: real-time TCP socket of Reader events.
- REST API

AdvanReader-70A includes an internal buzzer and an internal speaker of 2W for emitting an acoustic signal when an event takes place, e.g. when a tag is read.

AdvanReader-70A includes 3 surface LEDs with different colours that can be configured as desired.

The hardware keyboard emulation functionality hardware (USB Type-B connector) allows a very easy and fast integration with computers used for check-in/check-out applications, without having to modify any application software.

The keyboard emulator is easily configured to send the keyboard codes required by each software application.

AdvanReader-70A can also be connected to an Ethernet network switch. This gives the advantages of an Ethernet-enabled device: remote control, centralized management, etc.

### Radiofrequency specifications

Air Protocol Interface	EPCglobal UHF Class 1 Gen 2 / ISO 18000-6C
Frequency	<p>FCC (NA, SA) (917.4 – 927.2) MHz            ETSI (EU) (865.6 - 867.6) MHz            TRAI(India) (865 - 867) MHz            KCC (Korea) (917 – 923.5) MHz            MIC (Japan) (916.9 – 923.4) MHz            ACMA (AU) (920 – 926) MHz            NZ (New Zealand) (922 - 927) MHz            SRRC-MII (P.R.China) (920.125 – 924.875) MHz            MY (Malaysia) (919.0 – 923.0) MHz            ID (Indonesia) (923.0 – 925.0) MHz            PH (Philippines) (918.0 – 920.0) MHz            TW (Taiwan) (922.0 – 928.0) MHz            MO (Macao) (920.0 – 925.0) MHz            RU (Russia) (866.0 – 868.0) MHz            SG (Singapore) (920.0 – 925.0) MHz            VN (Vietnam) (866.0 – 869.0) MHz            TH (Thailand) (920.0 – 925.0) MHz            AR (Argentina) (915.0 – 928.0) MHz            HK (Hong Kong) (865.0 – 868.0) MHz            BD (Bangladesh) (925.0 – 927.0) MHz            Brazil (917.4 – 927.2) MHz by using channel selection            Chile(916 – 928) MHz by using channel selection            Peru (917.4 – 927.2) MHz by using channel selection            Taiwan (922.600 – 927.2) MHz by using channel selection            Open Region (859 – 873) MHz and (915 – 930) MHz (by using channel selection)</p>
RF Power	Programmable from 0 dBm to +27 dBm in 0.5 dBm steps
RF Antenna	Integrated circular polarized antenna. RF field is confined to avoid reading unwanted tags.
Data communications	<p>Ethernet: IEEE 802.3 up to 100 Mbps            Type B USB HID to emulate barcode reader            Console USB (USB micro Type-B connector) Maintenance port            Ethernet point-to-point over USB (USB micro Type-B connector)</p>
Power supply	<p>Power Over Ethernet (PoE)</p> <ul style="list-style-type: none"> <li>• Supports IEEE 802.3af (Type I) and IEEE 802.3at (Type II)</li> <li>• Power consumption: Class 3</li> <li>• Isolated from Ethernet cable</li> </ul> <p>Ratings &amp; Tolerances            PSE Type 1: 48 V (- 4 V / +9 V) Maximum power: 15.4 W            PSE Type 2: 56 V (- 6 V / +1 V) Maximum power: 30 W            On-board battery for RTC chip (CR2032)</p>
On-board actuators	Buzzer 2 W loudspeaker (only available in CF versions)
LED indicators	A three-color LED for indicating the active operation mode
Compatibility with software applications	Can be easily integrated with any application software, through keyboard wedge
Power consumption	<p>Idle consumption &lt; 2.5 W            Default consumption (@10 dBm) &lt; 7 W            Maximum consumption (@27 dBm) &lt; 9 W</p>
Temperature range	<p>Operating temperature            -20 °C to +50 °C            Storage temperature            -30 °C to +60 °C</p>
Dimensions	180 x 180 x 56 mm (7.09 x 7.09 x 2.20 inches)
Weight	820 g (1.8 lb)

### Mechanical specifications:

Units in millimeters and [inches]

### Product codes for ordering

ADRD	-	MX	-	A	-	MMM	
							<b>MX = number of ports</b>
		M1					1 port
							<b>A = antenna type</b>
				CP11			Confined field antenna
							<b>Model</b>
						70	Model

Examples:

#### ADRD-M1-CP11-US-70

- AdvanReader -70A
- 1 port
- CP11 antenna
- Frequency band: 902.0 MHz - 928.0 MHz
- Model 70

#### ADRD-M1-CP11-EU-70

- AdvanReader -70A
- 1 port
- CP11 antenna
- Frequency band: 865.6 MHz - 867.6 MHz
- Model 70
