BarTender® 2022

BarTender® 2022 is built to enable secure, anywhere, anytime printing for any business, and provides new, expanded resources for integration in enterprise environments.

- Print anywhere, at any time, on any operating system with Print Portal
- Easily connect labeling and enterprise data with our SAP HANA database connector

- Print faster with the newly redesigned Print Station, offering streamlined operations and improved performance
- Seamlessly integrate label printing with web applications using the BarTender REST API
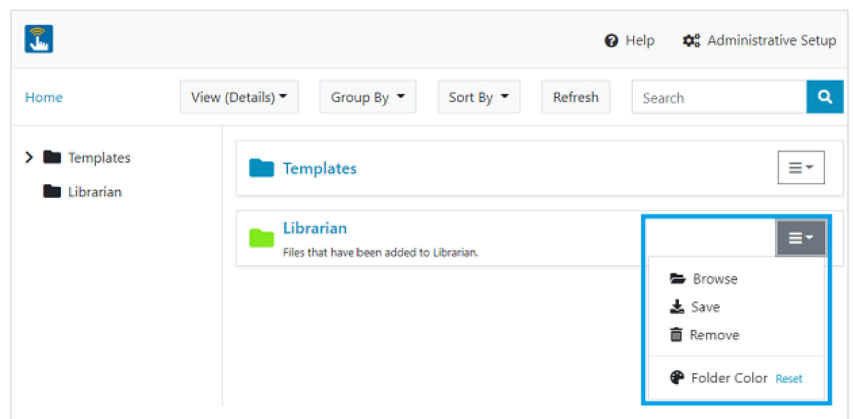

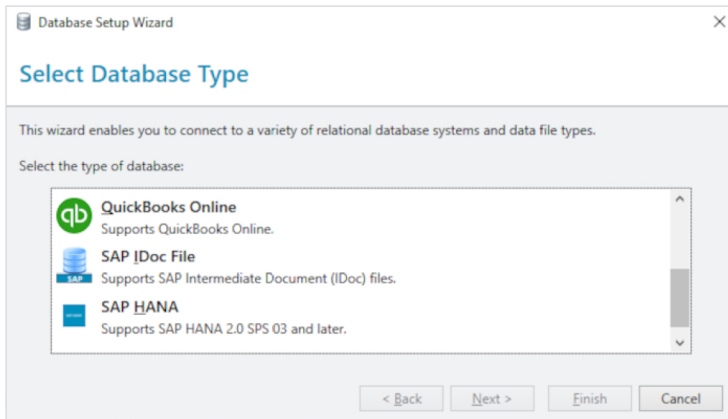

New BarTender REST API

- Access an extensive set of BarTender actions via a RESTful web-service API to automate label printing
- Integrate BarTender and enterprise applications with scripting formats such as YAML and JSON
- Quickly understand how to use the BarTender REST API through OpenAPI documentation

Expanded access to remote printing with Print Portal

(Now available in Professional, Automation and Enterprise Editions)

- Find, select and print labels from any device in an instant, via web browser
- Define custom folder images and colors to make documents and labels simple to locate
- Create and manage more detailed user permissions with expanded, more in-depth administrator controls
- Find and set security and advanced properties on all-new property pages, designed with user experience in mind
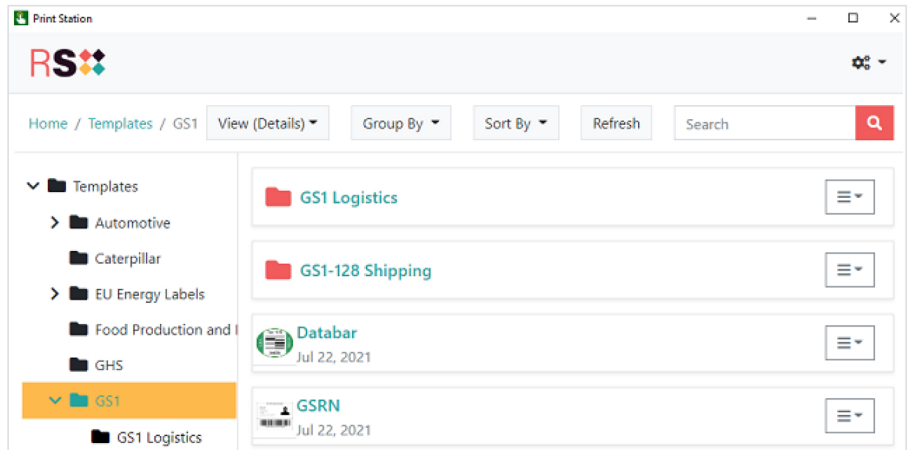

BarTender® 2022

New SAP HANA database connector

- Connect labeling directly with your data stored in SAP HANA
- Access SAP HANA in the cloud or via on-premises instances
- Support for SAP HANA 2.0 SPS 03 and later Versions

Redesigned Print Station

- Point and click printing: quickly locate and open documents, select printers, enter data and print using Print Station's new, intuitive modern user interface — new grouping and sorting options to help print operators work more efficiently
- Customize the branding of Print Station with your own logos and color schemes to integrate BarTender more seamlessly into your print environment
- Use Print Station to access and advance files through workflow states, and review and approve BarTender documents for production (Enterprise Edition)
