

Empowering manufacturers, transforming manufacturing

From complexity to clarity with Zebra Technologies

As manufacturing giants race toward automation and digital transformation, you might wonder — **what's in it for smaller manufacturers like us?**

With Zebra Technologies, factories and plant floors of **any size** can streamline operations, boost efficiency, and unlock new growth — making connected factories possible for everyone.

Augment your workforce

Improve training, communication and ensure compliance, while keeping production on schedule.

Increase visibility

Real-time tracking minimises errors and keeps materials moving efficiently.

Optimize quality

Enhance quality control, prevent losses, and reduce downtime.

90%

of manufacturing decision-makers agree market conditions are accelerating digitalization priorities.!

“Instead of having to ask a dozen different people to figure out the status of an order, we can just check the dashboard and see exactly where the boat is in real time. If an order is beginning to run behind schedule, we get an immediate real-time alert notifying us of the issue.”

Project Manager, G3 Boats

The outcome? Empowered workers, improved production quality, and real-time insights to help your company thrive.

¹Zebra Technologies Vision Study - The Rise of the Connected Factory

Every touchpoint. Total efficiency.

Discover how Zebra Technologies transforms operations on factory and plant floors across every corner of manufacturing.

Where can we make the biggest impact for you?

Quality management

Uncover and resolve issues early with precise root cause analysis and rigorous quality assurance.

Supply Chain Visibility

Gain complete, real-time insights into materials, inventory and shipments to keep operations running smoothly.

Quality Inspection

Automated inspection systems and machine vision technology offers real-time detection and verification.

Work in progress

Track progress, spot bottlenecks early, and adjust to keep things running smoothly.

Workforce Optimization

Real-time guidance, data-driven decisions and streamlined workflows to help workers perform efficiently and accurately.

Traceability

Real-time tracking follows each item through every step of the supply chain, ensuring accountability, compliance, and quality control.

Material handling

Always know exactly where materials are—no delays or misplaced stock.

Unified Communication

Ensure your team stays connected anywhere on the plant floor.

Asset Tracking

Always know the exact location of your equipment, tools, and materials.

Scalable solutions for manufacturers of every size and type

Now is the time to bridge gaps with technology and take full control of your digital future, for connectivity without complexity. Zebra Technologies is ready to support you.

Let's make it happen, seamlessly and at scale.
